PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sea water, sulphuretted hydrogen, or any of the gases, and preserves its original colour where white-lead paint will not. Also Grey Zinc Paint, strongly recommended for iron work.—Sold wholesale by JOHN WARNER and SONS, 6, Crescent, Jewin-street, London.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous influences, and is unaffected by sea water, sulphuretted hydrogen, or any gases; besides it preserves its original colour, which White Lead Paint does not. White Zinc Paint causes none of those ravages, invariably experienced by white lead, upon the human frame, neither painters colic nor paralysis, &c. &c., to which dangerous complaints the workmen, who manufacture and use it, are subject, and to which persons who reside near white lead works are liable.—As spurious articles having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and prospectuses, apply to Mr. H. F. SCHMOLL, General Agent for England and Scotland of the Company's Offices, 13, Mincheapter buildings, Westminster-bridge, and for supply of material and prices, at Messrs. CHAS. DEVAUX and CO.'S, 82, King William-street, City.

HUBBUCK'S PATENT WHITE ZINC PAINT.—The PERMANENT WHITE of the ancients, for its costliness hitherto restricted to the use of the artist, is now offered at the price of the ordinary white lead paint.

Four years since the proprietors placed their manufacture on a large scale, and put this elegant Paint in competition with White Lead.

Its confessed superiority over every other paint hitherto known brought forward serious imitations.

These inferior productions, frequently made from zinc ores, containing lead, arsenic and other deleterious material, alike injurious to health, deficient in body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence, that it is all the same.

Hubbuck's Paint is entirely free from any injurious properties whatever, it is healthful in the manufacture, healthful in use and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT;"

and if the cask has not been to market, the reason is obvious.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.
